This letter represents a combination of (Ain-R) and so includes the R-sound.

z (K) or s (S)

Letter-name spoken as you say J'ai in French (or J modified to the sound in the examples).

u or a to best join other letters. Same sound.

Under U.

z (kw)

Customarily joined for convenience but without a singular combination-name.

r or c to best join other letters. Same subtle sound range, from ũ to ɹ.

Sticklers for the H-sound in wheat, when, etc. should write h (hw) as given in dictionary pronunciations. Else, with Second Shaw's degree of accuracy, such words will read w'heat, w'hen.

Letter-name modified from Zed to emphasise its close relation with S.
